

Kans for Kids

Every little bit we do can make a difference in protecting our environment and conserving resources

We would like you to collect at least **one (but maybe even more!) clean and empty aluminum can or plastic bottle from each of your students.** Place them into a large plastic bag and bring them to the Festival. The Orange County Conservation Corps will be collecting them when you register. We will be recycling these cans and bottles, and by doing so we will be doing our part by saving water, energy and other natural resources.

All proceeds from recycling will go toward the Children's Water Education Festival.

THANK YOU FOR CARING ABOUT OUR ENVIRONMENT!

Please complete this form and attach it securely to your bag of cans and/or plastic bottles, which will be collected by the Orange County Conservation Corps. This form will be used to determine which class or classes bring the most cans/bottles. There will be an award for the winner/s.

Teacher Name: _____ School Name: _____

Phone Number: _____ Number of students: _____

Estimated number of cans: _____ Last day of school: _____
